UPDATES

## PREVENTIVE HSA

Planstin is thrilled to announce that we are rolling out a significant enhancement to the Preventive HSA Base Health Plan!

Planstin has always been committed to affordable benefits, and that is why we use one of the largest, most trusted provider networks in the country: PHCS. Through this partnership, we have covered our members' preventive services with no copays or deductibles.

However, we understand that not everyone has easy access to in-network providers for their preventive care. That is why, beginning on April 1, 2023, Planstin will cover out-of-network preventive services using reference-based pricing (RBP). Covered preventive care includes yearly exams, checkups, lab work, immunizations, and all preventive services outlined by the Affordable Care Act (ACA).

ALL  
PLANSTIN  
MEMBERS CAN  
EASILY TAKE  
ADVANTAGE OF  
COVERED  
PREVENTIVE  
CARE.

With this base health plan, preventive care benefits are paired with a Health Savings Account (HSA). An HSA allows you to take advantage of pre-tax and employer contributions to save on healthcare costs.

You can use your HSA to pay for eligible medical expenses, including dental and vision care. HSA accounts are portable, so you take your account with you if you change jobs and can even use them to save for retirement healthcare costs. Planstin's Preventive HSA is an ideal choice for healthy individuals who visit the doctor primarily for routine care.
